Once the two copies are dead, prevent the plant from turning and attacking it with everything. The copies last 5 moves from the original before re-joining with it, that is "ciÃ² which interests us" that the center does not move. If you need to know how to pass the man here I leave a guide. With the green copy we do as in the previous case. My personal preference Ã" is to kill red> blue> green. If you want to activate attacks in the area causing during a shift. In case it is red to take care enough to withstand the counterattacks. Immediately attacks with mental breakdown on every oncoming attack of aviationÃ - the DOOM sign attacks all enemies with the power of the destination. About this Ã" ciÃ² we have to work. Ã my first guide, so please go easily to me :) His skill set it looks like that. Enable 1 - Break mental - attack the enemy with a strong mental force and remove 1 beneficial effect 2 - Paranoia - manifest for the horrible disappointment and attack all Enemies and amazing defense for 3 rounds. As a last point, remember that the head of the 100th floor of the TOA or the Toah (Lyrith) whenever we enter the colors by randomly changing between the three. If you use Ã¢ à Ácarnation split "again, cercherÃ to merge with the incarnations. If it splits, there are 3 different scenarios that could occur. These three liabilities are: BLUE: increase defense, reduce likelihood to receive a critical 50% and reduce the damage to the rest of the allies by 15%, stick to its defense and when it hits it may support. As Ã" the boss and the hard CC don't care, you'll need to fall into your trap and get knocked out of it. (Does not work on Lyrith) Team composition: I heard that the overlap of the composition of the team": True, Beautiful, Target-Target-Nuker, Autkbar-Aument or Slow Debunker and an additional monster. Reported damage defense. Especially her combo with the çÅÁsleep-to-stunçÅÁ can hurt a lot. (I used the anavels for debuff storage) Ofc you could gamble and put a lot of debuffs on her and hope that anavel removes them. La copia azul la matamos a contadores porque debido a su alta defensa y reducciÃ³n de crÃticos le haremos poco daÃ±o directo. She also gains 25% of her attackbar, if you attack her, so try to stun her. Bring that monster, that you think your team lacks ;)Of course they are other teamcomps, which dont follow that order, but it helped me alot :)The farmable teams that i have seen would be:Baretta (L), Ahman, Bella, Kona, DarionBaretta (L), Bella, Spectra, Bernard, KonaBaretta (L), Ahman, Bernard, Shannon, KonomiyaThe hard part for some people were the road to Lyrith, so i wanted to give you some advice for that as well.First Stage:2 Anavel, 3 JunoThe Junos will heal 15% per debuff and her allies for 10% per debuff, if she has more than 1 debuffs on her with her passive, so try to avoid that by putting the debuffs on other monsters. Por Ãºltimo si es azul es una lata. AdemÃ¡s la principal tiene un ataque secundario en ÄjÂrea que rompe defensa y pega mÃ¡s en funciÃ³n de cuantas copias se han fusionado con ella. La tenÃ©Âis que matar a golpes, spectra le harÃ¡ poco daÃ±o y como es jefe no se le aplican contadores asique paciencia. (reusable in 3 turns)The Incarnation Within (Passive 1)Incarnation of Greed - Recovers 100% of the damage done to the enemyIncarnation of Vendetta - Instantly Counterattacks with Mind Break on every incoming attack Incarnation of Protection - Defense Increases significantlyIncarnation Merge (Passive 2) - Merges with Split Incarnations and removes all harmful effects.
